Re: 2016 State School Bond

To Whom It May Concern;;

Sanger Unified School District supports a State School Bond in November 2016. As such, I would like to add some considerations as you consider the focus of the 2016 bond and its relation to school construction bonds.

- The Sanger Unified School supports the state school bond because of the urgent need for both new and modernization of school construction.
- Local partnerships should be maintained in relation to school construction bond.
- We would ask that as you the 2016 bond consider support for a state level general obligation bond that maintain the current partnership approach.
- We support reforms that would establish greater latitude in how projects are dealt with by the Division of State Architects (DSA).

Again, I thank you for your continued efforts to better the lives of our young people by providing them access to fantastic new and modernized schools.

Sincerely,

Matthew J. Navo
Superintendent
